

ABC OF FINTECH

TGS-2022010682

SKILLSFUTURE CREDIT - ELIGIBLE

Course Description

Besides exploring various Emerging Technologies, this course provides a good understanding of Fintech and its benefits. Using a systematic framework, learners are taught how to assess and adopt emerging technologies within business operational processes.

Learning Outcomes

After attending this training, you will be able to:

- Investigate and document emerging technologies applicable for business
- Use a framework to assess and adopt emerging technologies for use within business operational processes

Prerequisites

- You must be 21 years old and older.
- With either completed at least secondary education or able to speak, listen, write, and read English at a minimum proficiency level of the Employability Skills Workforce Skills Qualification Workplace Literacy Level (WPL) 4

Course Information

Duration: 8 hours (including written and practical assessments)
Mode of Learning: Virtual Classroom

This course is suitable for:

Anyone who is keen to know about emerging technologies. As the course is about applying emerging technologies to a business operational process, the learner should be currently working or has worked before to give him a business context for his learning.
